

Ralph Masiello's

BUG

DRAWING BOOK

Simple steps make anyone an artist

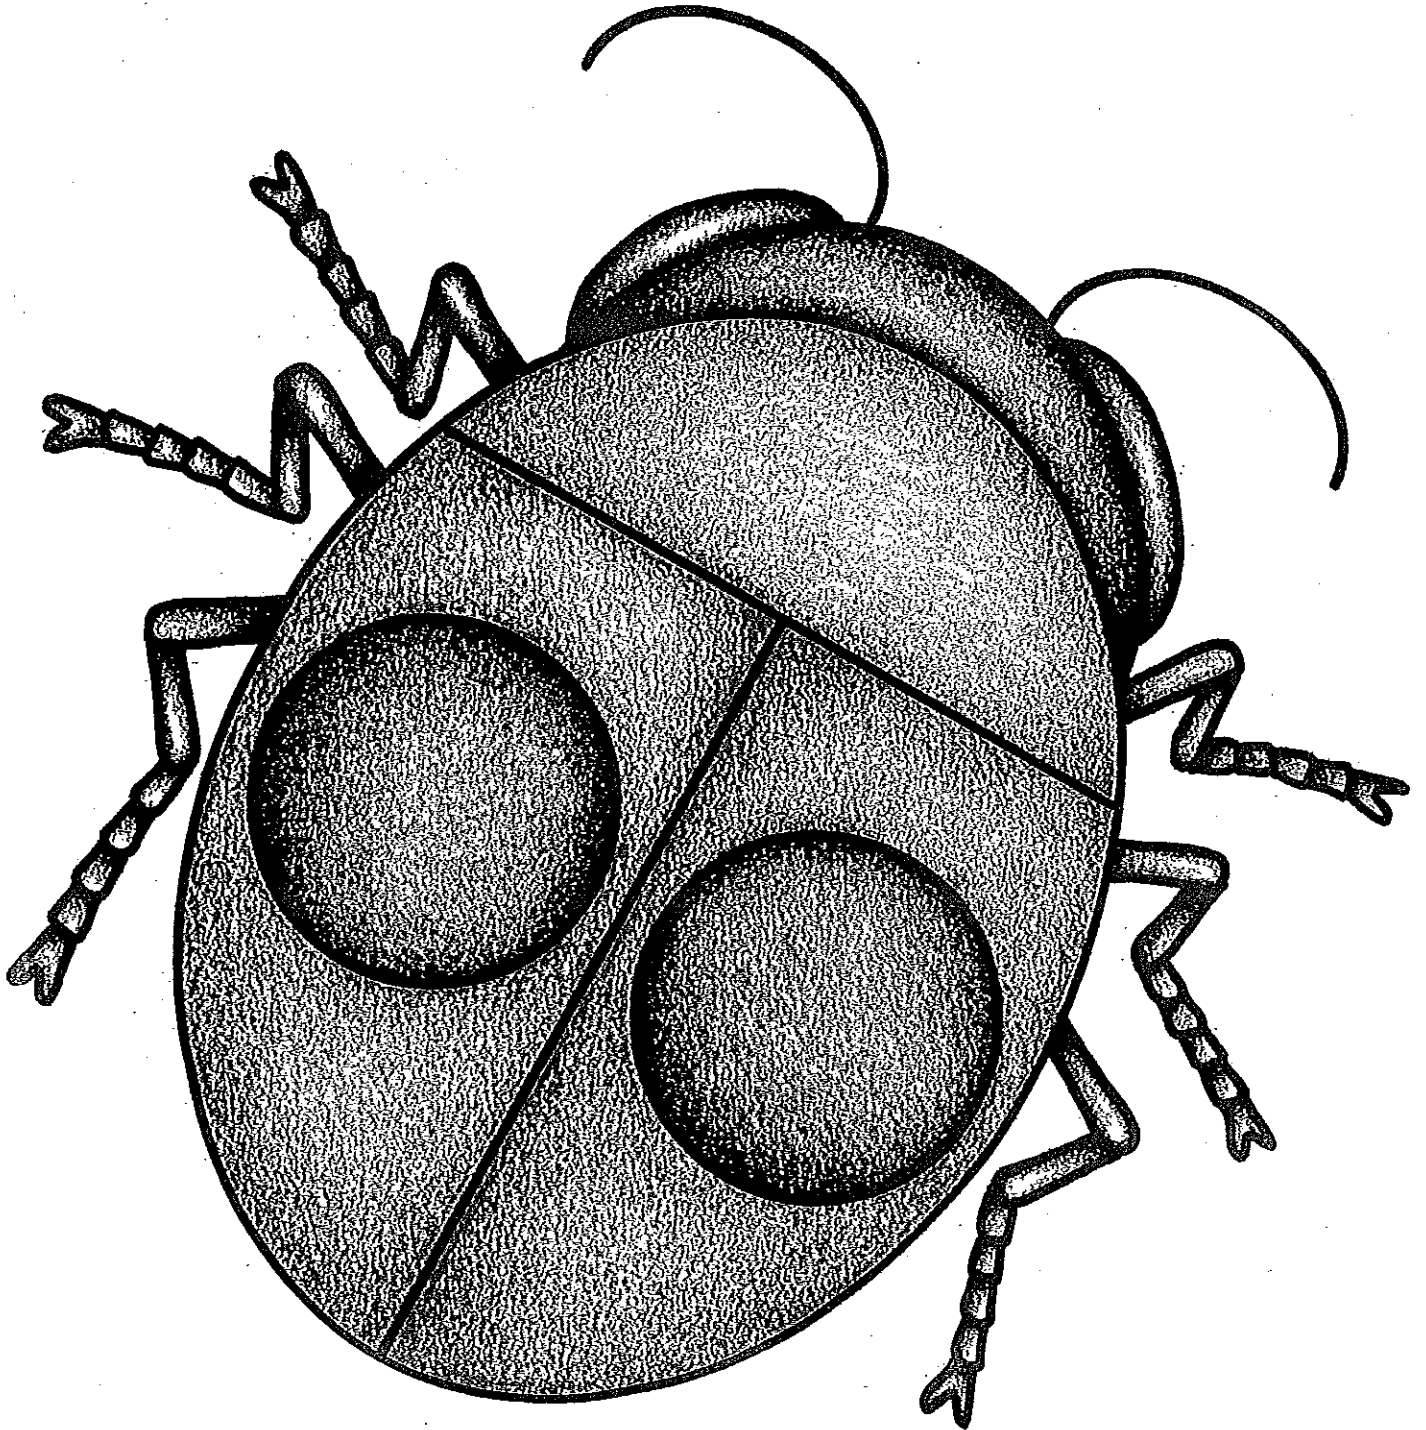

Beetle

Realistic Legs

Now have fun! Color that beetle
with your favorite color.

crayon

Stink Bug

Realistic Antennae

Add some realistic legs and antennae
to Mr. Stinky.

marker

Caterpillar

Hair and Movement

Make your caterpillar colorful.

colored pencil

Chrysalis

Branch and Leaves

Now give that chrysalis a place to hang.

pastel pencil

Butterfly (side view)

Make a whole life cycle: caterpillar
to chrysalis to butterfly.

marker and colored pencil

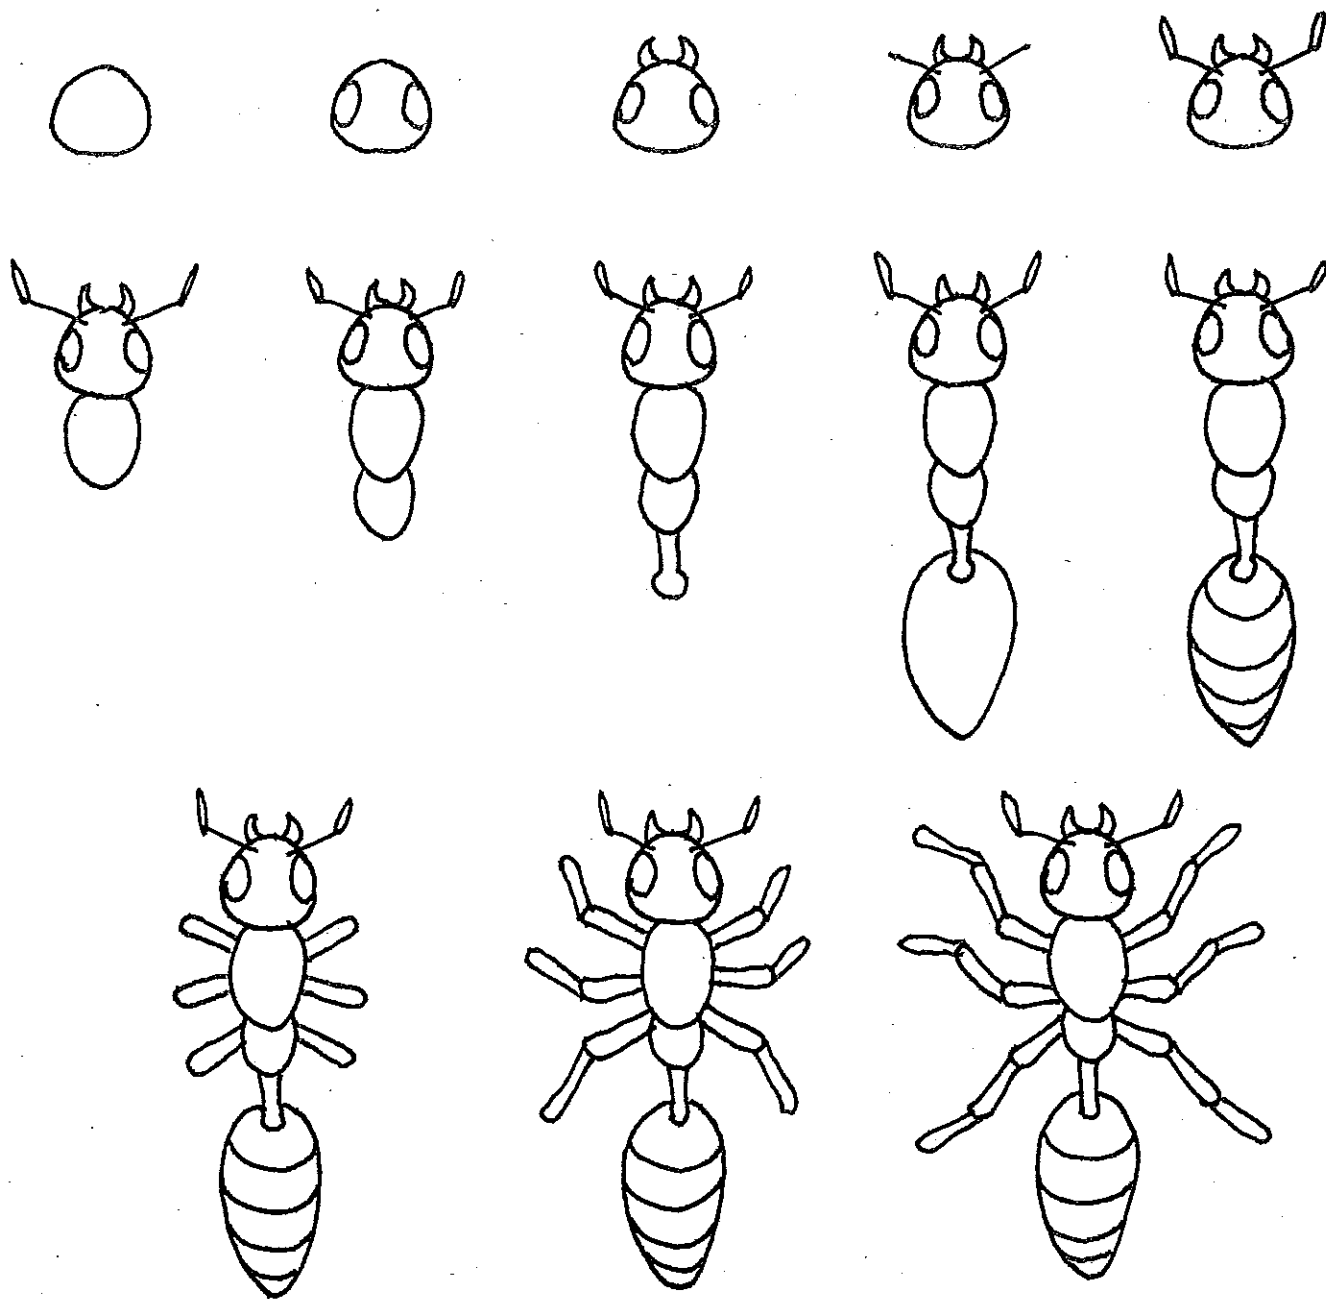

Butterfly (top view)

Flower

Ant

Mushroom

Let your ants creep all over that mushroom.

watercolor and
crayon

Housefly

Realistic Wings

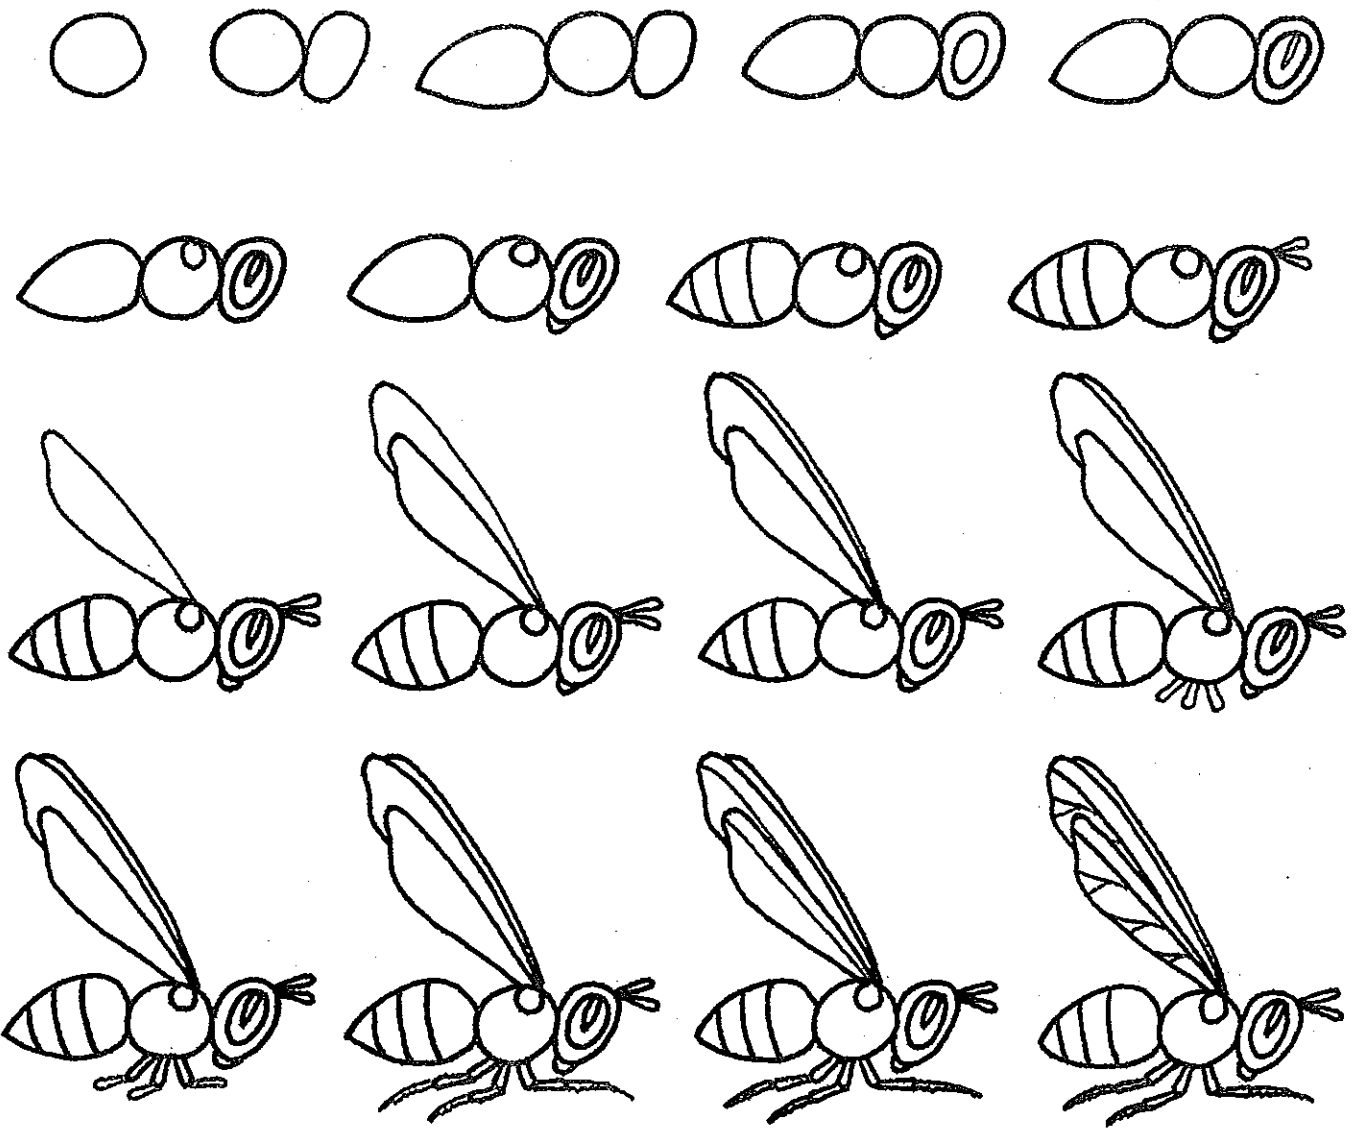

Make your fly HUGE!

watercolor and colored pencil

Bee

Flower

Bzzz . . . pollen break!

watercolor

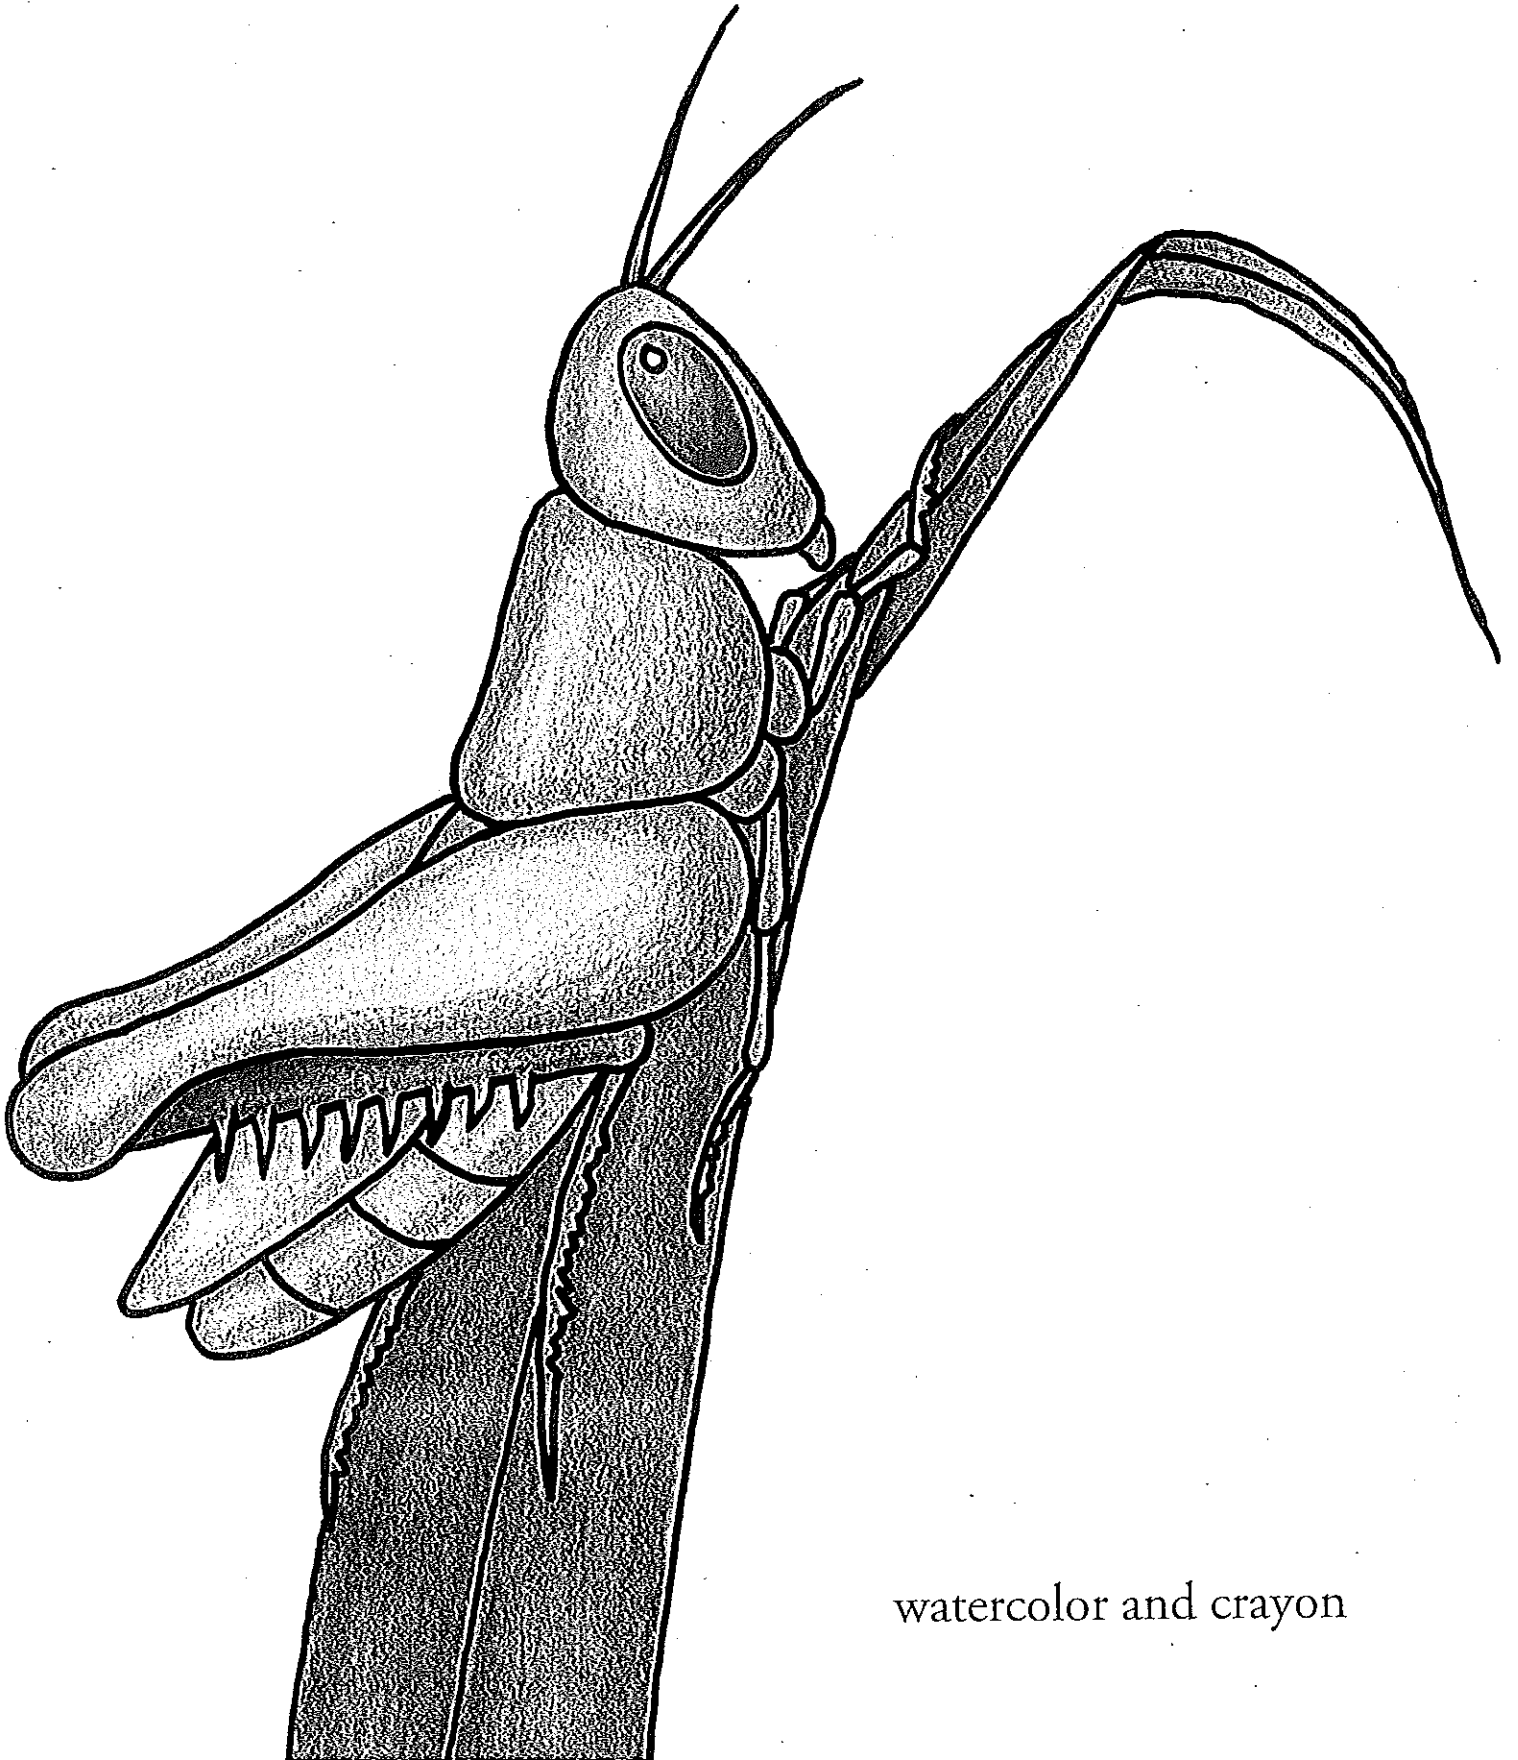

Grasshopper

Bent Grass

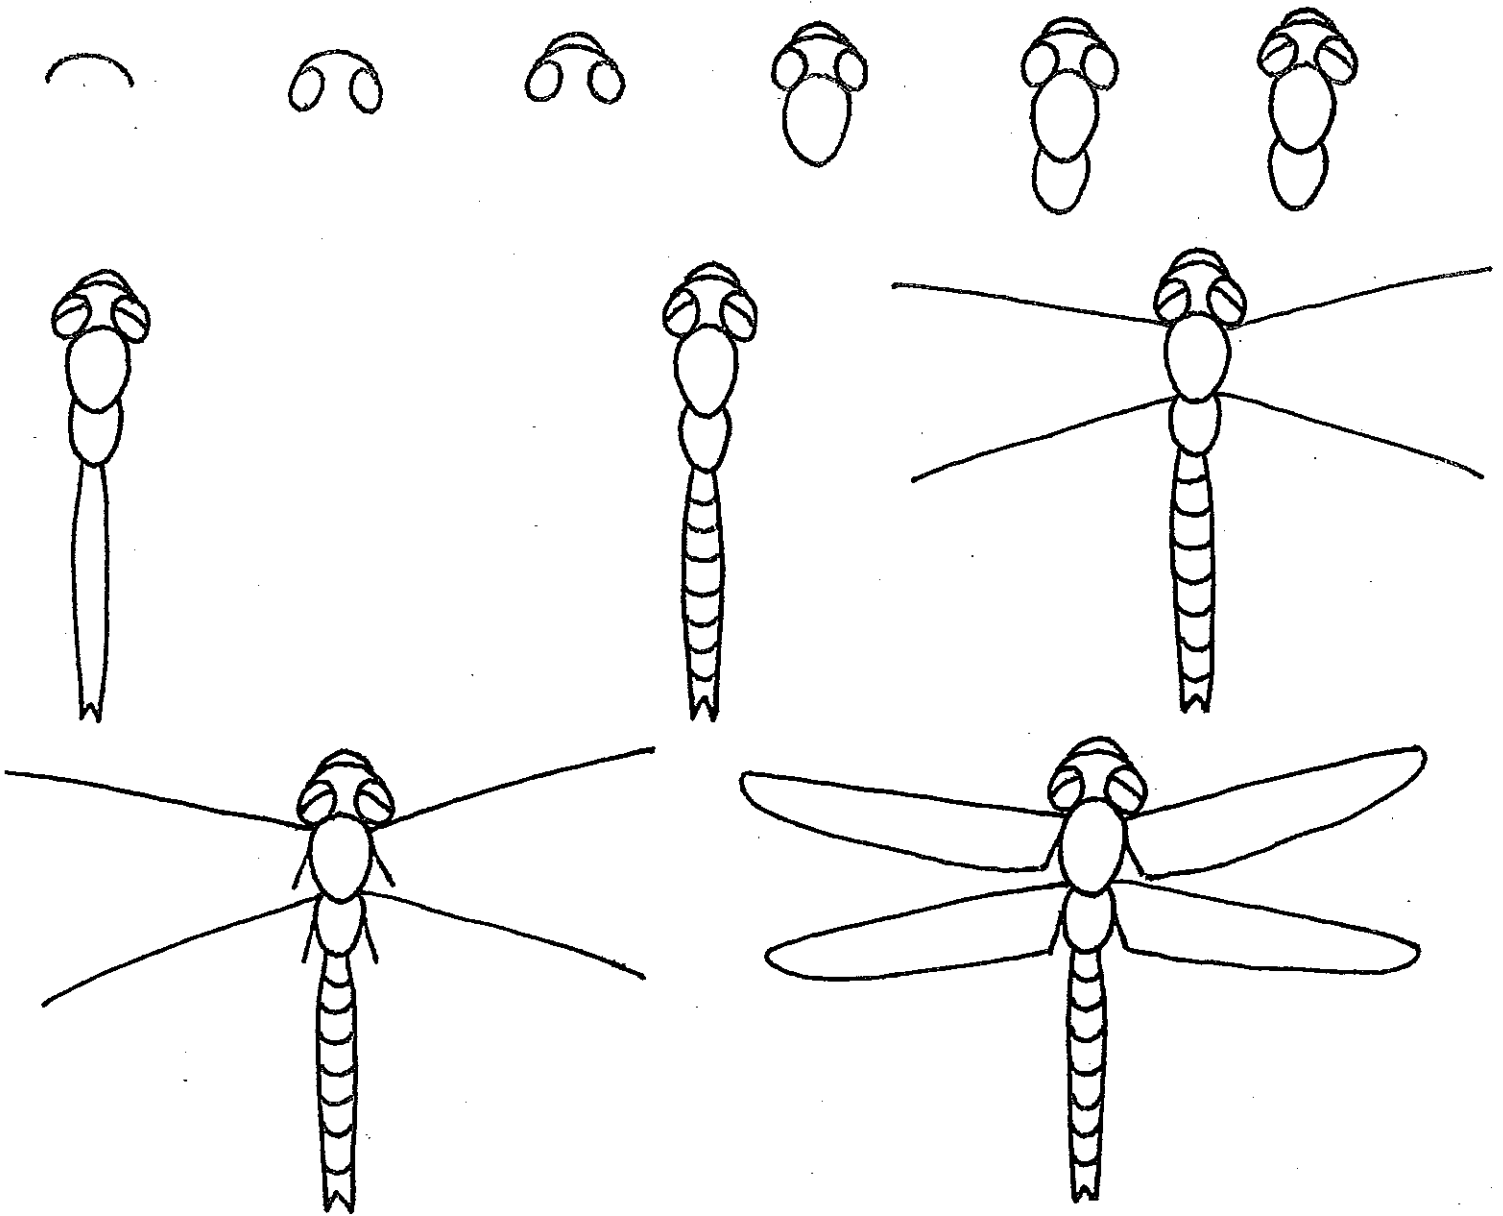

Your grasshopper sure looks good
on that blade of grass.

watercolor and crayon

Dragonfly

Realistic Wings

Try overlapping the dragonfly wings.

watercolor and colored pencil

Praying Mantis

Branch

Hey, look! The praying mantis
grew more legs!

crayon, watercolor, and pastel pencil

Time to use your imagination.

Now that you've mastered drawing some realistic bugs, why not try and create your own imaginary bugs? Use what you've learned as a starting point. Then name your bugs and write stories about them.

Here's one I created:
the bulb bug! The bulb bug
lives in "Electra City."

Have fun, and keep on drawing!
